

• Ali Shahidi

Backend Developer — Java & Spring Boot

alishahidi.github.io alishahidi1376@gmail.com +98 935 416 2611 github.com/alishahidi

Tehran, Iran

PROFILE

Backend software engineer specializing in Java and Spring Boot, focused on designing and implementing server-side systems, software architecture, and scalable, reliable services — with particular attention to data structures and how the components of a system communicate.

I approach each project beyond the code itself: stability, extensibility, and precision of design come first. My aim is to build systems that don't merely work, but that teams can depend on with confidence.

EXPERIENCE

Java Software Developer

Feb 2024 — Present

Navashgaran Asr Parseh

- Develop, maintain, and optimize enterprise-scale backend services with Java and Spring Boot.
- Design and implement RESTful APIs for high-traffic production systems.
- Contribute to layered, service-oriented architecture design.
- Drive the migration of data from legacy systems to modern data structures.
- Collaborate closely with backend, database, and infrastructure teams.
- Share technical leadership through code review, technical decision-making, and mentoring of junior and mid-level developers; serve as tech lead on parts of the project.
- Prioritize scalability, stability, and maintainability across production systems.

Skills: Java · Spring Boot · Backend Architecture · Data Migration

Backend Developer (Intern)

Aug 2023 — Sep 2023

Neshan Maps

- Joined the backend team as a formal intern, contributing to backend services for live product features.
- Gained hands-on experience with microservices architecture.
- Implemented caching and data management with Redis.
- Completed Neshan's specialized backend bootcamp, adopting professional development workflows and production practices.

Skills: Backend Development · Redis · Microservices · REST API · Git

TECHNICAL SKILLS

Java Spring Boot Hibernate
Oracle MySQL Redis RabbitMQ
Docker Linux
RESTful API Design System Design
Multithreading Data Migration
Unit Testing JSP Git
Python (tooling) Frontend basics

EDUCATION

B.Sc. Computer Engineering

Islamic Azad University, Tehran

2025 — Present

B.Sc. Computer Engineering

Khayyam University, Mashhad

2022 — 2025

Withdrew after relocating to Tehran.

STRENGTHS

- Problem solving
- Analytical thinking
- Ownership & accountability
- Effective teamwork
- Composure under pressure
- Focus in demanding conditions

LANGUAGES

Persian (native)

English (intermediate)

PERSONAL

Born 2004

Based in Tehran (Haft-e Tir)

Military service: educational exemption

Single

Software Developer (Frontend Focus)

Feb 2023 – Jul 2023

LaunchingMax

- Built user interfaces for organizational web applications with React.js and HTML5.
- Implemented web pages and integrated them with backend APIs.
- Collaborated closely with the backend team in a team-oriented environment.
- Enhanced UI/UX and contributed to the product development process in a company setting.

Skills: React.js · HTML5 · JavaScript · Frontend Development · Teamwork

PHP Developer

Jul 2019 – Feb 2023

Freelance

- Developed web applications and backend systems with PHP and Laravel.
- Designed and implemented backend logic and database interactions.
- Applied MVC architecture to build modular, maintainable components.
- Built user interfaces with HTML, CSS, and Bootstrap alongside the backend.
- Designed and implemented Apantos, a custom PHP framework focused on security, modularity, and ease of development.
- Delivered independent projects end to end – from requirements analysis through implementation to final delivery.

Skills: PHP · Laravel · MySQL · Bootstrap · System Design · MVC
